Spring 2016

Offering Prospectors a Choice of economical small scale mining equipment that inspires the Freedom of Choice.

CHOICE MEANS FREEDOM!

Clean-Up Sluices

15A2

Our most simple design. It is also our first. This little critter really catches the GOLD. Laminated with our fine ribbed rubber matting. For material 1/8" and less. Comes complete with pump and hardware.

Measures 18" x 8" x 3" overall. 3lbs 12oz.

\$75

15A3

Model is the same as the 15A2 but with a different matting. This Unit is for 30 Mesh Material and smaller.

Each Measures 18" x 12" x 3" overall. Comes complete with pump and hardware.

\$85

19A1

Our larger, more productive Alluvial Sluice. Same concept as the 15A2, only this Alluvial Sluice has a boiler plate, or ribbed slick plate, that allows for mixture of material with water, and extra gold capturing surface. Meant for 1/8" and smaller material. Comes complete with pump and hardware.

Measures 21" x 12" x 3" overall. Weighs 4lbs 8 oz.

\$95

19A2

Similar to the 19A1, this sluice includes even more improvements Starting with the boiler plate/ ribbed slick plate, material then passes over a section of the small ribbed material, then over another section of ribbed alluminum, before exiting the sluice after one final pass over the larger ribbed material. Comes complete with pump and hardware.

Measures 24" x 12" x 3" overall. Weighs 4lbs 8oz.

\$135

19A3

Similar to the 19A1 and 19A2, this sluice is designed for 20 mesh and smaller materials. The entire length of this sluice is one big section of small dimpled matting, designed to get the finest materials. Comes complete with pump and hardware.

Measures 24" x 12" x 3" overall. Weighs 4lbs 8oz.

\$105

24A1

Bigger and Badder than the others,

Measures 24" x 12" x 3" overall. Weighs 4lbs 8oz.
